

Juniors' Holiday English Programme

ELS's Holiday English Programme enables young students to combine learning English and have a holiday in some of Malaysia's interesting destinations.

This programme is open to students between the ages 11 - 15 and is conducted over two weeks (Mondays to Fridays plus one weekend trip). Students will improve their English language abilities in the four areas of Listening, Speaking, Reading and Writing. Students will be assigned tasks dealing with universal topics such as family, holidays, sports, etc. English classes will be in the morning while the afternoon is occupied with activities such as sports and cultural activities.

In order to maximize students' opportunity to see as many places as possible during their stay in Malaysia, this unique programme will move its students to a new location at the end of each week. As such, the students will have visited a minimum of 3 main places at the end of the two-week programme.

It is hoped that students will bring home with them memorable experiences of meeting new friends, confidence in their English language usage and enhanced interpersonal skills such as the ability to plan, cooperate, persuade and adapt with people and environment.
