EXCLUSIVE PROGRAMME ADVANTAGES

Your custom-designed English programme lessons begin only after ELS has gauged the purpose for which you plan to use your English.

ELS collects this information from your writing samples and Preliminary Survey Form which tallies your needs with the skill areas you most want to improve in. Based on this knowledge, ELS designs a course of study that suits your needs and helps you improve your English in the shortest time possible.

Each programme option offers highly-customised instruction specific to your individual needs. An Individual Report is available for you to share with your employer or sponsor as proof of your progress. This will be helpful in assessing your progress and assisting you in reaching your goals.
